The Third International Conference on risk management

The basis of a prosperous and dynamic society is a modern competitive and open market economy which is not limited by the Country's resources. In accordance with Kazakhstan's development strategy, Kazakhstan is aiming to becoming a member of the 50 most competitive countries in the world. One of main priorities for Kazakhstan to be able to achieve this goal, is to gain membership of the WTO. Membership of the WTO will serve as an additional instrument for the modernization and consolidation of the economic competitiveness of Kazakhstan in international markets. Successful realization of membership in the WTO depends on proper use and development of Risk-Management Tools which are the main factors for enhancement of competitiveness and stability of all financial sectors in Kazakhstan.

The International Conference on Risk-Management, organized by Eurasia Insurance Company, is in its third year now. The main purpose of these conferences is to transfer experience accumulated by professionals, who are leaders in their specialised fields within the sphere of Risk-Management, to the young and dynamic businesses of Kazakhstan.

One of the main objectives of this conference, as in previous years, will be the development of practical connections and contacts between leading managers of Kazakhstan and international organisations and financial institutions, thereby spreading the practices of proper Risk-Management.

The Conference will include presentation and discussions on the following topics:

- Membership of Kazakhstan and Russia in WTO.
- Risk-Management in companies considering IPO.
- System of Risk-Management as the main factor for enhancement of competitiveness and stability in the Country's financial sector.
- Circumstances and direction of Risk-Management development in Kazakhstan, Russia and other countries.
- Risk-Management for the financial management of large industrial holdings and conglomerates
- Risk-Management in the field of insurance and reinsurance for physical and natural risks.
- Creation of a specialized Catastrophe Modeling Agency to estimate the extent of potential damage following natural disasters and accidents.
- Securitization as the method of protection from consequences of natural accidents.

The conference is oriented for:

- Senior Managers of large Kazakhstan, Russian and International companies.
- Leading experts and specialists in the sphere of Risk-Management and Financial Management. Senior Managers in international insurance brokers and reinsurance companies.
